SKILLS

Mobile Technology

- Swift, Android
- Xcode, Android Studio,
- MVC Architecture, OOP Concepts
- Adobe XD, Figma

Web Technology

- HTML, CSS, Javascript, jQuery, ReacJS, NodeJS, Wordpress, Ajax, Bootstrap, Json
- PHP, Java, Python, C/C++, C#
- Laravel, Django, Visual Studio Code, IntelliJ IDEA, XAMPP, Postman, FileZilla

Database

- SQL, MySQL, PLSQL, SQL Server, Firebase, SQLite, Oracle, MongoDB, Workbench

Soft Skills

- Team Player, Time Management, Fast Learner, Problem Solving, Good Communication, Analytical Skills.

WORK EXPERIENCE

Manager

Restaurant Jolee
May 2022 – Present

Front-End Web Developer

Brainy Beam Pvt Ltd - India
Jul 2019 – Dec 2021

- Designed responsive, user-friendly layouts for seamless cross-device viewing websites using Bootstrap, HTML, CSS, JavaScript, and jQuery.

UI / UX Designer Internship

Conception I Technology - India
Jun 2018 – Dec 2018

- Assisted in creating user-friendly mobile app interfaces for various projects.
- Learned and applied the latest design standards to improve app visuals.

ACADEMIC PROJECTS

Weather to Wear (iOS APP)

- Created an iOS app for outfit recommendations using weather forecasts, implemented with Swift and following Xcode's MVC structure.
- Integrated PHP and MySQL to handle user data management effectively.
- Established secure registration and login systems using custom APIs.
- Integrated third-party APIs to access weather and location information within the app's functionality.

Flash Chat (iOS App)

- Seamlessly integrate third-party libraries in FlashChat using Cocoapods and Swift Package Manager.
- Utilize Firebase Firestore for cloud data storage and efficiently manage queries and sorting in Firebase databases.
- Create a solid foundation for a chat application by implementing user authentication, registration, and login processes with Firebase.

Kid's Letter Game

- Developed a dynamic PHP website for a kids' letter game with six levels, including challenges involving random numbers and alphabets.
- Implemented level progression management and user experience enhancements, including life tracking, to ensure a seamless gameplay experience.
- Designed responsive website pages using Bootstrap, HTML, and CSS, while structuring the backend with MySQL and defining winning conditions using Enum to maintain database integrity.

EDUCATION

LaSalle College

Programmer Analyst in Information Technology
Jan 2022 – Dec 2023

Gujarat Technolocal University

Bachelor of Engineering
Jun 2015 – Apr 2018
